

Corentin DUMORTIER

Bioinformatics Engineer

Personal information

Age: 25 years

Location: Rennes, France

Email: corentin.dumortier@gmail.com

Driving license: French B category

Languages

French: native language

English:

- Reading comprehension: fluent
- Written expression: good level
- Listening comprehension: good level
- Oral expression: good level

Spanish: the basics

Computer skills

Office : Excel, PowerPoint, Word

Adobe: Illustrator, InDesign

Languages: R, Python, Shell, Java

Tools: SQL, Nextflow, Conda, Singularity

R packages: Seurat 4 and 5, Tidyverse, ggtree

Soft-skills

Management: of a team, a small to medium-sized budget, conflict situations, stress, and pressure

Overall: fluency in speaking, autonomy, interpersonal skills and ability to work in a team, curiosity, maturity in organizing work

Interest

Sport: Swimming, scuba diving, dynamic apnea diving (distance and depth), calisthenics, running, hiking

Intellectual: Reading political and scientific press reviews, reading novels and comic books

Manutention: Drawing, writing

Community involvement

December 2022 - December 2023: VP of the events division of the “e-BIGO” association

December 2023: Volunteer day collecting material donations for the Women's Foundation

September 2019 - June 2020: Treasurer of the “COB sub Armor” association

Academic

September 2022 - July 2025: Master's degree in Bioinformatics and Genomics (BIG) with Computer Science for Biology and Health program, and minor in Interface between Biology, Computer Science, and Data Science; *Université de Rennes 1 - Rennes - France*

Courses taken: Single-Cell Genomics, Python, advanced R, Java, Database management (SQL, NEO4J), workflow management (Nextflow, Snakemake), Working in FAIR context

Internship:

- from 25 September to 22 December 2023: Master's 1 validation internship under the supervision of Drs Aurélie Lardenois and Antoine Rolland; *Irset team “URGENT” - Inserm - Rennes - France*
- from 15 April to 26 July 2024: additional internship under the supervision of Drs Frédéric Chalmel and Aurélie Lardenois; *Irset team “URGENT” - Inserm - Rennes - France*
- from 10 February to 31 July 2025: Master's degree validation internship under the supervision of Dr Florent Murat; *LPGP team “Sex, oogenesis and behavior” - INRAe - Rennes - France*

September 2021 - June 2022: Third year of Bachelor's degree in Life Sciences, specializing in Plant Sciences (SVG); *Université de Rennes 1 - Rennes - France*

Courses taken: Bioinformatics

September 2018 - June 2021: Bachelor's degree in Life Sciences, specializing in Organism, Population and Environmental Biology (BOP-E); *Université de Bretagne Occidentale - Brest - France*

Courses taken: Biostatistics

Research activities

September 25 - December 22, 2023: Internship at Irset-Inserm U1085 (Rennes) in the “Physiology and Physiopathology of the Urogenital Tract” team under the supervision of Dr. Aurélie Lardenois and Dr. Antoine Rolland; *Institut de Recherche en Santé, Environnement, Travail (Irset) - Rennes - France*

Title of the internship: Comparative analysis of steroidogenesis during fetal testicular development using single-cell sequencing approaches.

Skills: Autonomy, scientific rigor, Single-cell analysis with R [Seurat], Conda in a reuse context.

April 15 - July 26, 2024: Internship at Irset-Inserm U1085 (Rennes) in the “Physiology and Physiopathology of the Urogenital Tract” team under the supervision of Dr. Aurélie Lardenois and Dr. Frédéric Chalmel (Inserm DR2); *Institut de Recherche en Santé, Environnement, Travail (Irset) - Rennes - France*

Title of the internship: Deployment of a new single-cell data analysis workflow for the ReproGenomics Viewer (RGV) and UncoVer sites.

Skills: Autonomy, scientific rigor and redaction, single-cell analysis with R [Seurat], Conda in a reuse context.

February 10 - July 31, 2025: Internship at LPGP-INRAe (Rennes) in the “Sex, oogenesis and behavior” team under the supervision of Dr. Florent Murat; *Laboratoire de Physiologie et Génétique des Poissons (LPGP) - Rennes - France*

Title of the internship: Reconstructing comparative atlases of fish genomes, to better understand evolutionary trajectories across species.

Skills: Autonomy, scientific rigor and redaction, evolutionary and comparative analysis, Nextflow, Singularity, Conda.

Communication and publication

21 March 2023 : “Meeting Pro'Bio: Working at interfaces”; *Master BIG & BMC ; Université de Rennes 1 - Rennes - France*

Roles and responsibilities: Co-head of programming, co-speaker during the event.

Skills: Scientific event management, team management and teamwork, diplomacy and conflict management, stress management, public speaking.

3 November 2023 : Big Day 2023 “Towards responsible bioinformatics”; *Association e-BIGO ; Université de Rennes 1 - Rennes - France*

Roles and responsibilities: Head of programming, head of post-event activities, co-speaker, and co-host for the day.

Skills: Management of a scientific event and day, team management and teamwork, budget management, stress management, public speaking and facilitation in front of an audience.

Gwendoline C.V. Lecuyer, Aurélie Lardenois, Frédéric Chalmel, UncoVer: A Web-based Resource for Single-cell and Spatially Resolved Omics Data in Uro-oncology, European Urology Oncology, 2024;

Cited within the Uro-oncogenomics Viewer Group.

Exploration of somatic cell lineage specification in human gonads at single-cell resolution identifies GnRHR as a potential pre-Sertoli cell regulator, Submitted in Developmental Cell;

Other job

May – September 2023 and December 2023 - February 2024: McDonald's employee; *Bruz and Longchamps - France*

Skills: Autonomy, teamwork, working quickly.

Summer 2020, 2021, 2022: Bank receptionist; *Plédran, Yffiniac and Trégueux - France*

Skills: Administrative management, personal assistance, team work, independence.
